Hello Examiner Colbert,

First let me wish you the best of health and rest. Hopefully you are not having any more 16 hour days. Your phone messages sounded tired and because of this, I postponed setting up this interview.

Proposed Agenda:

1. Our firm has received your latest Office Action, which regards issue of incorporation of new matter. We have difficulty understanding this. As my timesheets indicate, there was a sustained dialog during the period leading up to the filing of a replacement specification in which I actively sought your guidance in how the matter in the initially filed a 35 sheet Figure should be incorporated into the specification. We may have made inadvertent mistakes, but need clarification on this issue before we can respond.

2. We filed arguments last year regarding the issues of novelty and non-obviousness, which we did not find addressed as of yet. We would like to walk through of these issues, in the hopes that your next action can lead to allowance, which we believe is justified based upon the prior art.

When would be convenient for you to meet with me on the phone?
